Money Market Limitation Changes – Regulation D

Effective June 22, 2010, the specific limitation of 3 check transactions per month (statement cycle) on Money Market accounts has been removed. A Money Market account will still be limited to 6 third party transactions per month; however, the change increases the allowable number of monthly transfers or withdrawals from Money Market accounts, payable to third parties, by check, debit card or similar order, from three to six.

Please contact your local branch office of American Bank if you would like additional information on Regulation D.
